

## د. سونيل كومار ماوريا

مساعد العميد للدراسات العليا والبحث العلمي، أستاذ مشارك  
مكتب العميد، العلوم الرياضية والفيزيائية – شعبة الرياضيات  
كلية العلوم والآداب  
جامعة نزوى، سلطنة عمان

هاتف: (+968)25446200

محول: 943

البريد الإلكتروني: sunil@unizwa.edu.om

موقع المكتب: 5D-5A

الحالة الاجتماعية: ...

حصل على درجة الدكتوراه في الرياضيات في عام 2013 م ، من جامعة المعهد الهندي للتكنولوجيا روركي في الهند ، وعلى درجة الماجستير في الرياضيات في عام 2008م، من جامعة B.H.U(الهند) ، كما حصل على درجة بكالوريوس علوم في الرياضيات و الفيزياء في عام 2006 من جامعة لوكناو (الهند) أما اهتماماته البحثية فتقع في المعادلات التفاضلية و النسبية العامة و علم الكون و التحويلات المتماثلة

[Dr- Sunil UoN CV.pdf](#)

### المؤهلات الأكاديمية

Ph.D, IIT Roorkee, 2013

### أنشطة التدريس

Engineering Mathematics-I, Differential Calculus, Integral Calculus, Ordinary differential equations and Fourier series

.Engineering Mathematics-III: Matrix, Vector space and Complex analysis

Calculus-II, hyperbolic, inverse trigonometric functions, techniques of integration, Applications of integration (volumes, surfaces, arc-length), the definite integral, sequences and series, Taylor polynomials and approximation

Calculus-I, Limits, Differentiation, Integrations

Precalculus

Differential Equations

Mathematical Economics : , derivatives and optimization techniques for functions, basic techniques of integration, definite integrals. The emphasis is placed on applications of derivatives and integrals to various problems from business, economics and finance

Foundation of Mathematics, Logic and proofs, Sets, Relations, Equivalence Relations, Functions and Cardinality

Foundation of Analysis, : field axioms, ordered axioms, Supremum and Infimum, Completeness of , Properties of Supremum and Infimum (Proofs of Uniqueness, Approximation, Monotonicity, and Additive Properties, and other properties) , and Archimedean property of real numbers; The dense set. The sets of rational numbers and of irrational numbers are dens in the set of real numbers

Introduction to Number theory, integers, divisibility, primes and their distribution, the theory of congruences, Fermat`s and Euler theorems, and applications

Mathematical Economics for Masters, statics (equilibrium analysis), comparative statics, and optimization problems and dynamics, making use of the following mathematical methods: differential and integral calculus (advanced calculus), dynamic optimization, linear programming and differential equations. They will be able to select and apply appropriate techniques to solve problems apply mathematical and graphical techniques in an appropriate manner

Engineering Mathematics-II: Vector calculus, Partial Differential Equations and Laplace transforms

الأنشطة البحثية

الاهتمامات البحثية -

Modelling of compact stars, Astronomy & Astrophysics

Differential Equations

General Relativity and Cosmology

Exact solution of Einstein-field Equations

المنشورات -

مقال:
