أنشطة التدريس

TAXATION IN OMAN (ACCT408), This is an advance level course in accounting. It aims at upgrading the knowledge of accounting graduates with Tax laws in Oman. Taxation is an important component of accounting education. The accounting graduates should have basic

information and understanding of tax obligation. This course provides an over view of Income Tax Law in Oman. , 2022 - till date

ACCOUNTING FOR SPECIAL TRANSACTIONS (ACCT301/311), This is an advanced level course in accounting and focuses on accounting of special transactions like Consignments, Joint Ventures, and Branches, These special transactions are part of present-day business. These transactions have special features and therefore are different from routine accounting. It is necessary for an accounting graduate to understand these special transactions and their accounting treatment as he is expected to manage as accountant of present business, SPRING 2022-TILL DATE

INTERNATIONAL ACCOUNTING (ACCT403), International Accounting is learning the various international dimensions of the accounting process, its measurement, disclosure and auditing. This course shall cover importing and exporting activities, managing business and how to obtain or supply finance across nations. Financial statements and other disclosures are impossible to understand without an awareness of the underlying international accounting principles and business culture. The focus is also on difference in culture, business practices, political and regulatory structures, legal system, currency values, local inflation rates, business risks and tax codes and how it affects the MNC's conduct, its operations and financial reporting around the world., 2022-TILL DATE

ACCOUNTING THEORY (ACCT611), This course is a theory-based guide to accounting, its application to management decision-making and its impact on our wider global society. This substantially reflects the contemporary developments in the subject while continuing to encourage critical analysis of the usefulness and relevance of accounting practices., 2023--TILL DATE

ADVANCED FINANCIAL ACCOUNTING, Advanced Financial Accounting is an in-depth guide to accounting that reflects the most up-to-date business developments. This comprehensive course addresses practical financial reporting problems while reflecting recent business developments and changes in accounting standards. The course offers a better teaching and learning experience by providing real-world context. Students learn how to apply key accounting concepts through studying real-world examples, such as reports from popular companies, and up-to-date coverage of businesses. Accounting students will find this course useful in preparing or analyzing consolidated financial statements, accounting for derivative securities, and governmental and not-for-profit accounting and reporting., FALL 2023

GRADUATION PROJECT (ACCT455), This course emphasizes developing research and problem-solving skills among undergraduate students. The students will work on a self-defined research project supervised by a faculty member. The students will be trained on how to do the research project. The students will identify a research problem and prepare a well-defined research proposal. The students are expected to conduct a literature review, develop research questions, objectives, and appropriate methodology; collect and analyze data and present the findings in an appropriate form. The students are expected to prepare a well-defined project report covering all aspects and give a presentation on the subject. This course is to be completed in two consecutive regular semesters fulfilling all requirements of the course in accordance with the Graduation Project Guidelines. , 2022-TILL DATE
